

# OIX Telecom Data Trust Framework Working Group Charter

---

V9 2011-1-25

This is a charter for an OIX Working Group as defined and governed by Part IV of the [OIX Member Rules](#).

## Name

The name of this Working Group is the **OIX Telecom Data Trust Framework Working Group**.

## Purpose

The purpose of this Working Group is to draft the OIX Telecom Data Trust Framework Specification. The current overview is provided on the [Telecom Data Trust Framework page](#) of the OIX website.

## Deliverables

The proposed deliverables of this Working Group are:

1. *OIX Telecom Data Trust Framework Specification*, prepared according to the OIX Trust Framework Requirements and Guidelines.
2. *Acknowledgement of Principles of Openness* for the above—a self-assessment of the accountability, transparency, open competition and other characteristics of this Trust Framework as required by the [OIX Trust Framework Listing Application and Agreement](#).

## Intellectual Property Rights (IPR)

This Working Group will operate under the IPR rules defined in Part III of the [OIX Member Rules](#). Except as licensed to OIX under those rules, Participants in Working Groups will retain all rights to their Contributions of pre-existing works, and works to which they contribute while participating in a Working Group.

In addition, this Working Group will operate under the Creative Commons [Attribution Share Alike license](#). This means all deliverables of this Working Group must be unrestricted and royalty-free with the exception of attribution.

## Membership Requirements

This Working Group is open to all OIX Members and Contributors as defined in the [OIX Member Rules](#). Participation by a broad variety of stakeholders is strongly encouraged. The Working Group may create rules for participation in the group as long as these are based on objective criteria, such as relevant experience, knowledge, credentials, or other available skills that support the work.

## Scope Limitations

The activities of this Working Group are limited to the purpose and deliverables stated above.

## Duration

This Working Group expects to complete its initial deliverable by the spring of 2011. At that time the Working Group will decide if it will remain active to maintain revisions to the OIX Telecom Data Trust Framework, or be rechartered when the next revision is needed.

## Organizer(s) and Initial Members
