

Identity evidence

Trust & confidence

**There are multiple barriers
to inclusion from an
identity perspective**

Digital literacy

Disabilities &
language barriers

Technology access

Initial ideas on areas for exploration

Identity evidence

- Vouching, particularly from public sector professionals; PASS cards
- Leveraging new GPG45 profiles – in particular, what public or private sector data sources can we access to validate evidence sources?

Digital literacy

- Add digital identity to the curriculum of existing digital & financial skills programmes
- Face-to-face support

Trust & confidence

- Role of government in aligning inclusion policy objectives & digital identity to accelerate adoption
- Face-to-face support

Disabilities & language barriers

- Promoting existing HMG best practice in UX design
- Delegated authority & authorisations

Technology access
