

DBS Identity Trust Scheme

February 2021

Disclosure &
Barring Service

Criminal Record Check market place

Project overview

DBS is creating an ID Trust Scheme to help ensure that all DBS applicants are verified to the right level.

The scheme will introduce Digital Identity proofing methodologies to achieve LOA3.

The ID Trust Scheme will be formed based on the DCMS Trust Framework and will be co-ordinated with Home Office ID Policy Unit and other key partners.

DBS will consult RBs and ROs to best understand the impacts to their processes and support them through this change.

Development of the DBS ID Trust Scheme will start April 2021.
