  • Technical Concepts
  • Economic

• Discussion
TRUST IN A CHANGING WORLD

In the old days
our world was smaller
we knew our business partners
Deals were sealed in personal contact

Increasingly
we operate World-Wide
we don’t know our business partners
Deals are sealed remotely through Cyberspace
TRANSACTIONS ARE INCREASINGLY CONDUCTED VIRTUALLY

We have virtual transactions with..

People    Organizations    Devices/Things
BUT WHO IS REALLY BEHIND THE ELECTRONIC IDENTITY?

As expected from the appearance:
Trustworthy -- legitimate
BUT WHO IS REALLY BEHIND THE ELECTRONIC IDENTITY?

Not what we expect!!!
Untrustworthy -- fraud
HOW CAN WE KNOW WHETHER A REMOTE SOMEONE/STHING IS TRUSTWORTHY?

We need Help

Trusted Authorities

Trusted Third Parties that publish Reputation Ratings

Certifies Trustworthiness

Trust List

Regulation and Supervision
WHAT DOES LIGHTTEST DO?

INFRASTRUCTURE FOR PUBLICATION AND QUERYING OF TRUST SCHEMES

Create a global Standard Way for publishing Trust Lists...

..on a global Trust Infrastructure

Across domains

Accommodate diverse perceptions of trust

* No global agreement needed

Authorities:

EC and MS for qualified signature providers and other trust services

Also,

Business registers

Professional registers (health, justice, law-enforcement, ..)

Corporate internal registers

...
WHAT DOES LIGHTEST DO?

TRUST POLICY AND AUTOMATIC TRUST DECISIONS

Make it automatic for Verifiers to query Trust Lists

Combine multiple queries to validate

- an Electronic Transaction
- against an easy to author Trust Policy

Trustworthy? (yes/no)

Electronic Transaction
e.g. signed document

Trust policy:
List of Authorities that I trust, …
WHAT DOES LIGHTEST DO?
INFRASTRUCTURE FOR THE TRANSLATION ACROSS TRUST DOMAINS

Authority publishes Trust List on..

..which authorities from other trust domains are trustworthy

..how to translate foreign into native trust schemes

- NIST: Level “3” == EC eIDAS: Level “substantial”

Bilateral agreements, etc.
WHAT DOES LIGHTEST DO?

INFRASTRUCTURE FOR THE PUBLICATION AND QUERYING OF DELEGATIONS

Delegation:

- Organization publishes Trust List on..
- ..who can sign/act in its name for which purposes

Authorizes employees to act/sign in its name
WHAT DOES LIGHTTEST DO?

PILOT DEMONSTRATIONS

e-Correos (by Correos)
- Spanish Postal Service, one of largest world-wide
electronic registered delivery service
- Identities of users
- Citizens and businesses receive official notifications from various administrations

PEPPOL e-Invoicing (by IBM)
- e-Invoicing in OpenPEPPOL environment
- Approach applicable to other PEPPOL applications
- Demonstrates easy of integration of LIGHTest in existing product
- Demonstrates “delegation-enabling” an application with LIGHTest.
LIGHTest has received funding from the European Union's Horizon 2020 research and innovation programme under G.A. No. 700321

LETS DIG A LITTLE DEEPER...

- Legal and Policy
- Technical Concept
- Economic
EXPECTATIONS AND GOALS
LEGAL & POLICY CHALLENGES IN LIGHTEST

Legislative requirements
- eIDAS Regulation on eID and trust services
- BRIS Directive on business registers
- GDPR for data protection
- And a myriad of national laws (e.g. representation of companies, contracts, liability, ...), depending on use case

Works nationally or sometimes at EU level

Domain name system
- Built on a multistakeholder model (not legislative)
- Based on expert consensus
- Focus on enabling technically trustworthy communication, not on legal value, validity, truth, accuracy, liability, etc.

Works globally
LEGAL & POLICY APPROACH IN LIGHTEST

LIGHTest is a toolbox
- LIGHTest uses DNS as a technical trust anchor
- But legal value and compliance doesn’t originate from DNS

LIGHTest includes legal tools as well
- Security will be built into LIGHTest infrastructure: privacy by design
- We will provide templates for T&Cs, privacy policies, and contracts between LIGHTest users

LIGHTest needs to be tailored
- Our pilots will show how LIGHTest can be deployed on a contractual basis
- We will provide guidelines on how LIGHTest can be used in other settings

LIGHTest is not a legislative initiative
- We don’t aim to change laws, but to show how DNS can be leveraged as a trust communication/validation tool
- Compliance needs to be assessed in each individual use case

EARLY-STAGE STAKEHOLDER ANALYSIS

Participants of the ecosystem

**Active Stakeholder**

End Consumer
- Individual consumers
- Companies
- Public organizations

Trust (Infrastructure) Provider
- Trusted Entities
- Developers of Software using Lightest
- Running Technical Infrastructure of Lightest or Parts

**Enabling Stakeholder**

Enabler
- Public institutions
- Research facilities
- Disseminators

**Internal Stakeholder**

LIGHTest Project
- Project sponsor (EC)
- Lightest Project partners
- Lightest Advisory Board

SCOPE OF LIGHTTEST INFRASTRUCTURE

Private Sector
- Shipping...
- Banking...
- Credit Card...
- Internet of Things...
- Etc.

Both
- Notarizations...
- Cross-Border Certifications...
- Access Control Management..
- Etc.

Public Sector
- Health Information Services..
- E-Voting...
- Business Registrar...
- Etc.
