## eIDAS stance on commercial arrangements

---

Confidential / Restricted / Public  
Presentation or part title

### eIDAS states:

*art. 7: “the notifying Member State ensures the availability of authentication online, so that any relying party established in the territory of another Member State is able to confirm the person identification data received in electronic form. For relying parties other than public sector bodies the notifying Member State may define terms of access to that authentication. The cross-border authentication shall be provided free of charge when it is carried out in relation to a service online provided by a public sector body”.*

Source eIDAS c/o Adam Cooper

### In summary:

- 1) Private sector parties will have to accept member states' terms for access
- 2) Public sector authentications between member states are FoC

14/02/2018

## Ubiquity of terms

---

Confidential / Restricted / Public  
Presentation or part title

*recital (17) in the regulation states that: “the authentication possibility provided by any Member State should be available to private sector relying parties established outside of the territory of that Member State under the same conditions as applied to private sector relying parties established within that Member State.”*

Source eIDAS c/o Adam Cooper

### **Summary:**

- 1. No international tariffs.**
- 2. Terms may vary across different member states.**
