Candidate Statement - Jim Lound (jim.lound@condatis.com)

Introduction

1. What are the key opportunities you see for the OIX in 2020?
   a. To support the UK Government’s Trust Framework proposition.
   b. Play an active role in bringing the Trust Framework proposition to the private sector.
   c. Help facilitate the transition of Verify.
   d. To influence all Regulators to accept and promote the use of federated digital identities.
   e. Encourage market led participation in developing the ‘ubiquitous UK digital identity marketplace’.
   f. To help Relying Parties to understand what benefits federate digital identities can bring to their business.
   g. To evaluate the sources of attributes that could be made available, discover their real potential value to the Relying Parties and understand the difficulties in releasing their value to the digital identity marketplace.
   h. Attract more RPs and APs to the OIX membership.

2. How will you demonstrate your commitment to the work of OIX in terms of resources, focus and leadership?
   a. I have represented two member organisations of OIX since OIX became prominent in the UK at the time that Verify was being developed.
   b. Over the years, I have been involved in many OIX projects, members meetings, Board Meetings, open meetings and EoI events.
   c. I continue to be involved in the OIX / techUK working groups.
   d. I remain a strong supporter of what OIX has achieved over the years and what OIX can achieve in the future.

3. What would you like to see accomplished, and how do you plan to make these things happen?
   a. I would like to see OIX’s influence and involvement in the UK digital identity marketplace grow further in 2020.
   b. I would like to see the number of Relying Parties, consumers & citizens embracing the use of federated digital identities to increase substantially during 2020.
   c. I would like to see the planned Trust Framework proposition come to fruition for the public and private sectors.
   d. I would like to see an operational service replacing the current Verify solution, servicing existing and new Government Departments
e. I would like to see all UK Regulators acknowledging and encouraging the use of federated digital identities as means for their firms to satisfy their customer identity checking obligations.

4. **What resources will you and your organisation bring to help OIX attain its goals?**

a. I work for Condatis. Condatis has embraced the vision of a ubiquitous UK digital identity marketplace, recognising that market forces will determine users’ preferences, the types of identities utilised, the number of schemes operating and the stakeholders participating.

b. Condatis has encouraged me to apply for the role of Member Representative and recognises the commitment this entails. If invited, Condatis is prepared to demonstrate the contribution it can make to this marketplace.

c. Whilst I do not profess to know all the OIX member representatives, I do have a good working relationship with many and I would commit to ensuring that I engage with as many people as possible in order to understand their needs and aspirations in relation to the objectives of OIX, taking their views to the OIX Board.

5. **What current or past experiences, skills, or interests will inform your contributions and views?**

a. I have been involved in the identity industry for over 20 years and I have hands-on experience of developing point solutions that allow organisations to check the identity of individuals online.

b. I have hands-on experience of developing an identity provider solution that satisfies the requirements of GOV.UK Verify and the re-use of the digital identities in the consumer world.

c. I am interested in the business application of new technologies and the opportunities these can bring in terms of taking the digital identity marketplace forward.

d. I’m not afraid to ask the stupid questions.
